SALT LAKE CITY, UTAH

Dear Cynthia:

While I am in school here  
I haven't much time to write to all of my sisters  
- sisters and brothers, <sup>brothers</sup> so I will have to write  
to one and let them all read the letter. (the whole tribe)

Well - Vats news? Say you know  
what you can get for me? I haven't heard  
about the fire in the Coconut Grove - so -  
If you can go to the "Globe" office and get some  
back numbers at the day of the fire and the  
bawling days I will appreciate it very much.  
The back numbers are only a nickel each  
and they will mail them for you for a few pennies

Say the next time you spend 56¢ to mail  
a magazine to me I'll bill you. Don't ever  
send any magazines "first class" when you can  
send it third or fourth class much cheaper.

I am not in that magazine. Say since

when do you think you can recognize me  
from the back of my head? Incidentally -

Clark <sup>"Dable"</sup> is up here with me. It seems  
that guy is following me for some reason or  
other. I got this clipping from a newspaper.

I got the radio + the goodies. (thank you)

Don't send me any more food unless it is  
candy or cookies. Although I would like a nice  
angel food cake. We get plenty to eat here  
and the food is delicious. Seven different sauces  
on the table, napkins, toothpicks and everything else.

You leave a tip under your plate as you leave.  
The tip goes to the home for Blind Field Mill.

How's Nate? Has he returned my tools yet?

That guy is so dumb they wouldn't even  
take him in the Navy (and the navy is the last resort)

tell him if you see him that I forgive him  
for his obvious jealousy. If he can't stand the  
thought of his girl waiting to his friend without  
thinking he is stealing his girl, Boy he certainly don't  
know how to keep his women happy.

My best to you and nate and the kids. H &
